Curriculum Vitae

Prof. Tirtha G. Dey
SACT and Head
Department of Computer Science
Pandaveswar College
Affiliated to the Kazi Nazrul University
email: reach2tirtha@rediffmail.com
Mob: 8167240707

Career Objectives:

To associate myself with an organization that provides a challenging environment with an opportunity to provide my innovative skills and diligent work to keep adding value to the organization that I serve while upgrading my skills and knowledge.

Working Experience:

➢ Currently working as a SACT and Head in the dept. of Computer Science, Pandaveswar College, Pandaveswar (Joined on September 2015).

➢ Worked as a CWTT and Head in the dept. of Computer Science, Banwarilal Bhalotia College, Asansol from July 2007 to December 2018.

➢ Worked as a Part Time Lecturer in the dept. of Computer Science, Trivenidevi Bhalotia College, Raniganj from November 2006 to July 2007.

➢ Worked as a Full Time Faculty member in WILL Institute of Information Technology, Asansol.

➢ Worked as a Vocational Teacher in Computer Application in Ukhra Kunja Behari Institution, Ukhra.

Educational Qualification:

➢ Post Graduation (Master of Computer Application), West Bengal University of Technology (2006).

➢ Graduation (Hons. in Electronics), TDB College, Raniganj, Burdwan University (2003).

Projects:

➢ **Students' Admission System (VB with Oracle)**

While performing our above project, we had in our mind the five points basically in regard to "Students' Admission" in an educational institution.

a) Application Section - It is designed in such a way that applicants can choose subjects easily. No two applicants can have same application forms. So applications can be safely taken by the institution.

b) Admission Section - It is designed so that institution can easily select students for different subjects of various streams like B.A, B. Sc, B.Com etc. without consuming much time and energy.

c) Merit List Section - It is designed in such a way that merit lists of students can be available with minimum clicks. The list can also be printed.

d) Searching Section - This project is mainly designed for the purpose of three kinds of searching viz., (i) Vacancy Searching, (ii) Applicant Searching and (iii) Admitted Student Searching which are very difficult in manual searching.

e) Security Section - It is designed to introduce "Passwords" in the system without which no one can unauthorizedly enter into the system.

➢ **CMC – ATC Mail Server (JSP with Oracle)**

The above project was basically made for maintaining all the ATCs of CMC Ltd. That would help to deal with all the ATCs very easily and efficiently as well as very flexible to use with all the following objectives.

a) The main objective of the project was to design a fully web based system by which the main office and all ATCs could maintain their different types of transactions.

b) The main office could also maintain the databases of all ATCs and keep the record of all transactions of all ATCs and calculating the turnover annually and assign priority to all ATCs according to priority.

c) The project would also help to maintain the ATCs requisition that means different ATCs send their requisition to the main centre and centre to try to fulfill it.

d) The other objective was to maintain the stock database. It keeps the track about how many number of study materials or accessories had been supplied and for which requisition.

Training and Workshops:

➢ Completed training on .Net Framework (On C#) From CMC (Kolkata).

Extracurricular Activities:

➢ Play Guitar, Recitation.

Hobbies and Interests:

➢ Reading Books, Listening Music.

Languages Known:

➢ English, Bengali and Hindi.

Strengths:

➢ Innovative, Hard Working.

Address for Communication:
